

## Eric Video Transcript

My name is Eric. I live in South London with my family. I'm a resettlement worker with a charity, and I help people who are in recovery from addiction, people who are homeless and also ex-offenders. Alongside that I do dance music production, and some vocals.

I got my Vanquis card about four years ago originally, because I basically needed... I didn't have a bad credit, but I didn't really have much of a credit history. So Vanquis were good enough to give me a card. So I said I could be good enough to manage the card. I use it for my shopping, definitely. Of course, I need to. But also since the advent of COVID I've realized that it's just so convenient for online purchases and when you go to the shop it's contactless. You don't even have to put your pin in, so for me it works.

I have actually already recommended Vanquis to some friends and family, because it gives you peace of mind, security for your purchases, the convenience, and it's so easy to use.
